Bud, Dick, Gary only,

With this a copy of John Nichol's letter of the 13th and my yesterday's response.

I have made no further reference to the bullet, but will if I do not hear about that.

My personal feeling is that his letter does not allay my deep disquiet about the entire effair, for it can be interpreted as deceptive(switching the certification and the body chart) and is acknowledgement of what is in any event obvious, that he knew exactly what he was doing.

And did it anyway.

Sincerely,

Harold Weisberg

P.S. For you who do not know, this is not all.
